Open the door and feel for yourself; it's all in the details.

Tylö sees the whole picture

Take a seat. Free your spirit and enjoy every detail. Tylö has buckets, ladles, hourglasses, thermometers, wooden headrests, towel racks and many other accessories that blend into the setting and enhance the total experience. For us, the bathroom is a world of well being and pleasure. Open your senses and enjoy the complete experience.

Bucket and ladle

There's something special about pouring a ladle of water over hot stones, what we call water sprinkling. Gusts of steam rise from the stones, causing your skin to tingle. Tylö has sleek buckets and ladles that match your design.

Thermometer

A sauna is not complete without an hourglass and thermometer. Choose between our classic rustic design and a more contemporary style with decorative details in blonde or dark wood. Express your personality and enhance your sauna experience.

Sauna stones

The heart of the sauna. Tylö's classic heaters can be filled with natural stones of black diabase that tolerate rapid heating and cooling. Available in different sizes.

Wooden headrests

Our wooden headrests, towel racks, lamp shades and heater guards are made of the finest wood. Tylö's carpenters are artists through and through. They are devoted to creating perfection. The craftsmanship is tangible.

Lighting

Lighting is important at Tylö. We have decorative shades, dampened lighting tracks and inset downlights that spread a gentle glow over your relax area.

The warm, discreet light embraces you and creates a soothing feeling.

Fragrance

Our delightful fragrant essences add an extra dimension to your sauna or steam room. Enjoy the pleasant experience of a drop or two in a ladle of water sprinkled over the hot stones. The oils spread a wonderful fragrance of eucalyptus, peppermint, pine, lavender, cinnamon or citrus.
